

36th FEBS CONGRESS | Biochemistry for Tomorrow's Medicine

Torino, Italy

25-30 June, 2011

Lingotto Conference Center

Organised by

Federation of European Biochemical Societies (FEBS)
Italian Society of Biochemistry and Molecular Biology (SIB)
University of Torino

in collaboration with

Italian Federation of Life Sciences (FISV) and affiliated Societies
Co-sponsored by the Department of Life Sciences,
Italian Research Council Rome

Scientific Committee - Chairman Sergio Papa
Organising Committee - Chairman Gianfranco Gilardi

Plenary Lectures

Opening Plenary Lecture Pier Paolo Pandolfi (Harvard Medical School, Boston - USA)

Sir Hans Krebs Lecture Elena Conti (Max Planck Institute of Biochemistry, Munich - D)

Datta Lecture Sirpa Jalkanen (University of Turku, Turku - FIN)

Theodor Bücher Lecture Pier Giuseppe Pelicci (European Institute of Oncology, Milan - I)

EMBO Lecture Luis Serrano (Centre for Genomic Regulation, Barcelona - E)

IUBMB Lecture John Mattick (University of Queensland, Brisbane - AUS)

PABMB Lecture Hugo Maccioni (National University of Córdoba, Córdoba - RA)

Closing Plenary Lecture Guido Kroemer (Gustave Roussy Institut, Villejuif - FR)

Congress Symposia Areas

The genome in the 3rd millennium
Complexity in RNA biology
Following the life of a protein
Cell-cell communication
Membrane dynamics
Molecular basis of development
Systems biology
Molecular engineering for medicine
Prokaryote biochemistry: friends and foes in the microbial world
Metabolic control and disorders
Recent advances in cancer biology
Cellular senescence and aging
Rare diseases reveal new biochemical mechanisms
Biochemistry of the brain and neurodegenerative disorders
Molecular basis of cardiovascular diseases
Biochemistry of immunity and inflammation
Biochemistry and molecular biology of malaria and tuberculosis
Plant biochemistry for health and tomorrow's medicine
Molecular and cellular therapeutics

Oral presentations shall be selected for every symposium from the submitted abstracts

Poster sessions will cover the areas of the symposia and the additional topics:
bioinformatics, bioenergetics, glycobiology, metals in biology, proteomics

Workshops on technology developments

Activities by FEBS committees and working groups

Science & Society - Education - Women in Science

Young Scientist Forum

23-25 June, 2011

www.ysf2011.org

Deadlines

Bursary application 28 Feb, 2011

Abstract submission 31 Mar, 2011

Early registration 31 Mar, 2011

Regular registration 31 May, 2011
